ONE ROOF

About us

- Pioneer Enterprises, is a forerunner in **acrylic solutions** for business advertising and displays. **Established in 1997** as a sister concern of Sharan Ads, the unit has been addressing and providing customized solutions to many big and small corporates and businesses.
- The Company excels in manufacturing of Sign Boards as a combination Acrylic and Aluminium Composite Panel, Display Boards, Acrylic Podiums, Neon LED Signage and varied Acrylic items. Pioneer Enterprises specializes in rendering Acrylic Fabrication service and works apart from Prototyping through Acrylic Fabrication works.
- Since inception, the company has been accessible to the clients through third party vendors. As manufacturers, the Company has now entered the market directly with an intent to understand the unique and specific requirements of the client and to minimize production-to-delivery glitches. This would also ensure efficient pricing, better service standards and a win-win atmosphere for both the client and manufacturer.
- Our elaborate, our elaborate and custom-built infrastructure has played a fundamental role in sustaining us to meet the diverse requirements of the industry. With correct and uncompromised quality sourcing of raw material, further strengthened by our superior production techniques, Pioneer Enterprises stands out as a reliable business partner for existing and potential client groups.

Offerings

- Since the establishment of our business, our infrastructure is playing a fundamental role in sustaining us to meet the preferred requirements of the industry.
- The whole range is manufactured utilizing qualitative material and advanced techniques, which have made them most excellent in terms of reliability and cost-effectiveness.

The Market

About Acrylic

This media has all the advantages of glass while it discounts its fragility and countering aspects. Acrylic media is 10 times more impact resistant compared to glass. Withstands many years of hassle free usage in any weather conditions. It is easier to clean and maintain. While the base material is transparent, frosted and colored finish are also available. The colors withhold in extreme weather conditions and is non toxic to people and environment.

The boards are flexible for any (size / shape) and every type of customisation.

Infrastructure

Machinery

Equipped with
8x4/3x4 laser machine
3x4 industrial oven
8x4 CNC router machine
HP Latex Printing machine,

Our Field of Experience

Acrylic Fabrication
Outdoor Advertising
Indoor Advertising

ACRYLIC FABRICATION

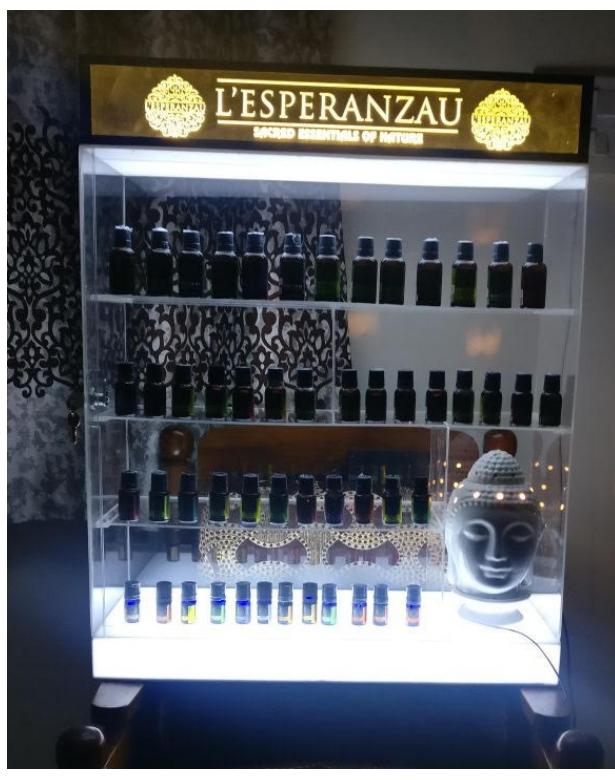

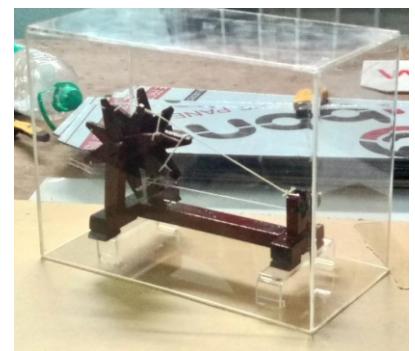

Acrylic fabrication involves all the methods that are used to create desirable shapes and structures out of unprocessed acrylic. Acrylic sheets are cut according to requirements using acrylic-cutting blades, plastic cutter, saber saws, table saws or routers.

Pioneer Enterprises offers custom acrylic fabricating for industrial applications. Our staff works with each client from initial inquiry through the delivery of the finished part to ensure that your part meets or exceed your application requirements. We specialize in fabricating acrylic, shatter-proof thermoplastic. Acrylic's properties include high machinability, good thermal properties for a broad range of temperatures, and the distortion-free light transmission. Also commonly known as Plexiglass®, it is a cost-effective substitute for glass and heavier plastics.

ACRYLIC DISPLAY UNITS

These customized Acrylic Display Units are used to display your products. A display unit (also called showcase, display cabinet, or vitrine) is a cabinet with one or often more transparent acrylic surfaces, used to display objects for viewing. Often, labels are included with the displayed objects, providing information such as description or prices. In a museum, the displayed cultural artifacts are normally part of the museum's collection, or are part of a temporary exhibition.

CUSTOMISED PRODUCTS

Customised products are best described as blank products that are designed or created by the customer. People typically use images, logos to create products. Our staff works with each client from initial inquiry through the delivery of the finished part to ensure that your part meets or exceed your application requirements.

ACRYLIC FURNITURE

We are offering Acrylic Customized Podiums, Tables etc., .Manufactured in adherence to the industry set standards, these furniture are known for their smooth finish and elegant design. The optimum quality of these stands is maintained through rigorous quality assurance checks conducted by our team of quality controllers.

ACRYLIC DROP BOX

Our stock and custom Acrylic Ballot Boxes and Donation Boxes are the ideal solutions for your suggestion , donations, election, voting, raffle, and customer service needs. No matter the reason, at Pioneer are confident we have the box you need. Acrylic clear drum is great for giveaways, tricky-trays, grand prize events and more! A lockable door (with provided keys) sits on one end of the middle part of the drum and can open and close via hinge - use this area to reach inside to select your winners and to empty the unit. On the other side, is the area where users can drop tickets, votes, or whatever else you have planned. This slot has a built in sliding door to keep the contents inside when you spin the drum to commence the raffle. The base features four rubber feet to keep the unit in place as you spin.

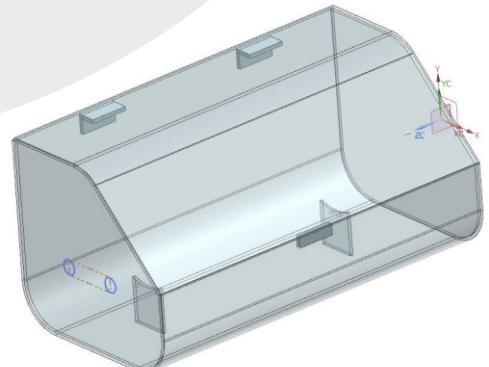

MOBILE CHARGING STATIONS

A mobile charging station is a designated place for charging a mobile device. Charging Stations are mostly used at commercial places like hotels, hospitals, exhibitions and other public places. We at Pioneer Enterprises can customize Mobile Charging station in Combination of Acrylic and metal structure Lit/ Non-Lit. These are one of the best service oriented Advertising tools.

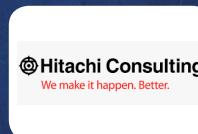

PHARMACEUTICAL NEEDS

With the support of talented professionals, we are passionately engaged in offering high quality Pharmaceutical Acrylic products. These products are widely used in pharmaceutical industries. The provided products are designed using quality tested material with the help of contemporary techniques in accordance with predefined industry norms. Machine Guards, Safety Covers, Machine Covers, Tanks, Tool boxes, Test tube stands, View Glass, Tablet inspection Tray, Column Holder, Friability test Acrylic Drum & Trays, Weighing Acrylic Box and many more customized products.
